

# big island futsal

In the state of Hawaii, the state governing body for the sport of Futsal is the Hawaii Futsal Association. The association has aspirations of integrating strong Futsal leagues with existing soccer programs throughout the state at the youth and amateur levels.

The association works in conjunction with both Youth and Adult State Soccer Associations to further develop the skills of the state's youth players. Big Island Futsal began promoting the sport in the winter of 2014 with its first league in Keaau, HI.

Big Island Futsal is established to help our youth develop not only into great soccer players but also into productive members of society. Futsal provides a lot of entertainment for all who participate. Since everyone on a Futsal team must work together as one entity the most important concept to promote is teamwork. Together we can produce the best soccer players in the country.

All players registered with the U.S. Futsal Federation through the Hawaii Futsal Association will receive secondary medical insurance coverage while participating in any sanctioned Futsal leagues and tournaments. Annual Futsal dues are \$15.00 for youth players, \$25.00 for adult players and \$25.00 for coaches. The association will also provide facilities insurance coverage for all Futsal leagues.
