## LHYSL COMPETITION CHEER (cont.)

### **When does practice start and how long do they last?**

Sideline cheerleading practices will begin appx week of July 21st. Before the school year starts, sideline cheerleading practices are 3-4 days per week. Once classes begin, practices are 2-3 days per week (not on Fridays) and last up to 2 hours, depending on daylight. Days of the week and actual times are determined by each teams head coach.

Starting week 4 or 5 (as determined by Head Coach) practices will change to 1 day: sideline practice and the other 1 or 2 days: competition practice. Come September (or as determined by Head Coach), all practices will shift to competition practice only. Please note, if your child is not enrolled in competition cheer, they will not be required to attend competition practices.

### **Are there any extended practices I should be aware of?**

Yes, this will be determined by the Head Coach. The Head Coach can schedule an extended practice for the team on a weekend day that is not on the same day as a game day. Extended practices should be communicated in advance to allow parents as much notice as possible. It is suggested that extended practices include a break and lunch/snack during this time. Historically some squads have hosted 1 or 2 extended practice from 9am – 3pm (with a few breaks & lunch break in between).

### **Where will practices be held?**

Practices for cheer will be held at LH Middle School fields or surrounding areas around and inside of Licking Heights Middle School (AUX gym). This will also be the location for opening day and home games. Practices for cheerleading will move indoors mid-September/beginning of October so location and times may change.

### **Are practices and attending the expos/competitions mandatory?**

Yes. Competition cheerleaders and their families understand that opting to participate in competition cheerleading requires 100% commitment & participation for all practices and expo/competitions events.

### **Why is participation 100% mandatory?**

As we understand circumstances can arise; the routine does not work if we are missing one cheerleader at any time during a practice or at the competition. Depending on the cheerleaders “part in the routine” this could potentially cause us to lose out on practice time for that piece of the routine, rewriting the routine/or parts of it, or restructuring other cheerleaders to help support pyramids and/or group stunts. Failure to miss more than 2 practices may result in being removed from the competition routine and will be determined by the Head Coach & Cheer Director(s).

### **Who creates the routine for competition?**

Creating a competition routine is a complex task for our volunteer coaches that is why it is important they know at the beginning of the season how many cheerleaders are participating as they will build a 4-5 (2:30 max for the dance/music portion) minute routine that includes formations, transitions, dance movements, tumbling, stunting that is all timed to selected music. Additional volunteer support is always welcomed & encouraged from Team Parents. Please reach out to your Head Coach and the Cheer Director(s) if you are interested in helping to choreograph your teams routine.

### **Are there any registration/entry fees for the cheerleaders at the expo/competitions?**

Yes. Each squad participating does pay a registration fee to join in the festivities. New this year, squad entry fees were covered you're your registration fees.

### **Are there admission costs to families attending the expo/competitions?**

Yes. Each expo/competition may have an admission cost per person as these funds are used to help support the program season after season. Please be on the lookout for those amounts as competition gets closer.

### **How should I do my child's hair and makeup for the day of the expo/competition?**

The Head Coach will make the decision on how his/her squads uniformed appearance will be for that day; this includes hair style, desired makeup, glitter on face, or sparkly hair. Nail polish: plain, white, or gold only. No long nails, or press-on nails.

### **Will I have to volunteer for competition cheerleading?**

Volunteering is a very key component of the LHYSL and much needed for the day of the expo/competition event. The coaches may need support prior to the event with practices, building the routine, selecting the music, creating a chant or cheer. For the event days, assistance may be needed in doing hair & makeup for the squad, providing snacks & drinks, carrying cheerleading equipment, taking photos and more. Your team parent and coaches will provide a list of needs to help fulfill.
