

MRLL Covid-19 Code of Conduct

Murphy Ranch Little League's primary objective is to provide and maintain a safe and healthy environment for all players and coaches, while maintaining a competitive little league program. Please keep in mind that these policies are temporary and are subject to change following updates from state and local governments. All players, parents and coaches must follow these policies starting our first day of practice/clinic and until further notice.

Per the County of Los Angeles Department of Health and California Little League District 56, players and/or coaches should not attend any practice/clinic under any of the following conditions: If they do not feel well; if anyone they live with exhibits signs or symptoms of Covid-19; if the player has been in contact with someone who has tested positive for Covid-19 or if the player is considered a vulnerable individual with underlying health conditions. If a player, coach, or a member of their household of player or coach has a confirmed positive Covid-19 test, that player or coach will not be permitted back on the field until at least 10 days have passed since your symptoms first appeared AND at least 24 hours after recovery, which means fever has resolved without the use of fever reducing medications and there is improvement in your symptoms (e.g., cough, shortness of breath).
