 - Example: Pitcher John begins with batter # 3, his pitch count = 19.
 - John throws 9 pitches to batter # 3 totaling 28.
 - If the pitcher does not face another batter and he is removed Johns pitch count can be recorded as 20 because he “finished” the batter he began with when his count was below 20.
- c. **1-20** pitches in a day, no **(0) calendar day** of rest is required.
- d. **21-35** pitches in a day, one **(1) calendar days** of rest must be observed.
