

# East News

### Special points of interest:

- Vardar East Reborn
- Our first goal
- Steady Development
- Tryouts
- Mackenzie

Miss Mackenzie plays for the boys U11 Red team and loves it. Despite being the only girl in the age group she is not phased by the guys at all. A very good reader of the game and playing with the boys is making her play faster!

## Michail scores our clubs very first goal!

### Vardar East is Reborn

Vardar East is back!

A couple of meetings in December and then an email to the kids in USL inviting them to attend Winter tryouts.

Three boys teams were formed immediately. 2 x U11 and 1 x U12.

### The Purpose?

To provide affordable competitive travel soccer for the East side. "We even post our prices online" said Director of Coaching Gordon Gardiner "transparency within our club is paramount to our growth".

April 13

Michail M scored Vardar East's very first travel goal.

Michail whp plays on the U11 Red team was invited to play up on the U12 Black team by coach Gordon.

After going down a goal to RSC, Michail came on as a substitute 15 minutes into the 1st half and immediately made his presence felt with some wonderful through balls to our forwards.

Ten minutes later Michail tied the game up with a surging run from midfield in between the RSC center backs and then calmly put the ball in the back of the net.

VE went on to win the game comfortably 4 - 1

Congratulations Michail

Information will be posted on our website in May for the 2019-2020 tryouts and open house.

## Steady Development

Moving from Recreation soccer to travel soccer is a big leap, not only on the field but off it as well.

Simple things like wearing the same uniform or showing up on time for pre game warm up was a challenge in

the first weeks. The players and parents have settled into their routine now.

On the field we are seeing steady growth with the players in both technical and tactical ability - it really is fun to watch them figure

things out. With regards to the results, some wins, some losses = Youth Soccer. At VE we are more concerned about the development of the player over the scoreboard.

Sure! Everyone wants to win, but how you win is more satisfying .
