- *The youth umpire will be responsible for communicating with the umpire scheduler. This is a job and an important aspect of the job is for our youth umpires to learn to communicate for themselves and to be responsible for their own work schedules. We will utilize email and GroupMe to communicate. If an umpire does not have an email address, we suggest that the umpire setup a gmail address that they can utilize for umpire communications.*
- *Vine Ingle Umpires are independent contractors and must have their own medical insurance.*
- *We will make every effort to work umpires into the schedule. We have some umpires that work only 1 or 2 games a week and we have other umpires that will work every opportunity available. We strive to balance work schedules across all available umpires.*
